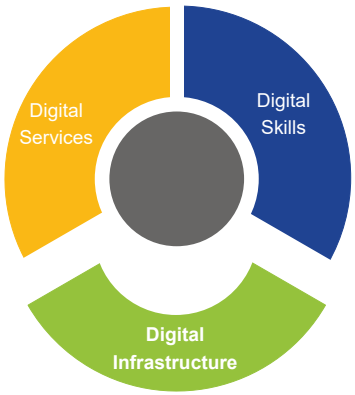
Financing tools
for funding and financing broadband infrastructure

Interreg North Sea Region CORA
European Regional Development Fund

EUROPEAN UNION

CORA
CONNECTING REMOTE AREAS



IN A NUTSHELL

One of the main barriers in developing superfast broadband infrastructure in less developed and rural areas is the lack of private investement. Local and regional authorities need adequate knowledge on different funding and financing options as well as effective business models to initiate and successfully implement their broadband projects. Find out more about the options regarding financing tools for funding and financing broadband infrastructure in this online course.

The choice of financing tool is one of three choices regarding the funding and financing options of broadband infrastructure.
