

# Integrating the digital strategy for Oldambt

CORA online workshop 1

27 October 2022

# Building a new digitalisation agenda

2021

- Municipality of Oldambt works on several projects in the field of digitalisation, but there is no actual programmatic approach
  - Wish for an integrated digital strategy grows
- Integrate existing activities and ambitions for the future in one policy document and approach

# Challenges

## Digitalisation:

1. Digitalisation is all-embracing and has many aspects to it
  2. Many organisations are active on the topic
- How to focus

## Within the municipality:

1. Dedicated project leader for digitalisation left the organisation
  2. Everyone has a piece of the puzzle
  3. Digitalisation is not firmly embedded in the organisation yet (feels as 'extra')
- How to get all information on current activities

# Approach on focus

- Bring the topic of digitalisation close to the developments and actualities within the municipality
- Local programme on the future of Oldambt:
  - Make structural impact
  - For and with residents of Oldambt
  - Match with the general vision of the municipality
- Characteristics and focus areas
  - Socioeconomic disadvantage and lower than average literacy rates
  - Boosting economic development
  - Public space and role of the municipality in this

# Prerequisites

Based on the local programme and characteristics

3 prerequisites for succes:

1. Up to date digital infrastructure
2. Focus on digital literacy of both inhabitants and entrepreneurs
3. Enable all residents to participate in the digital society (inclusive approach)

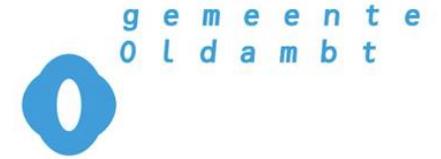

# Approach on collecting information

## 2 rounds of interviews

1. What do you know and what are you working on currently that relates to digitalisation?
2. Building a new agenda: what would you wish for?

# Goals

## Digital society

- Realise a full-fledged digital infrastructure
- Increase awareness on cyber security and the use of digital tools
- Strengthen digital skills and literacy
- Facilitate encounters

## Digital government

- Participate actively in regional networks on digitalisation (learn)
- Optimise digital municipal services
- Extend use of digital participation methods
- Make more use of data within policy making

# Next steps

- Recruit project leader
- Translate policy document into implementation agenda
- Find budget for the execution of activities through subsidies
